

AI's Tech Talk Summary of 3-29-2025 zoom meeting

A HUGE THANK YOU 🎉 to All who showed up and Participated 🥳👏

TOPICS DISCUSSED:

*SWR meters, Match tuners, Coax cables (watch for deterioration) Routers, Dummy loads (ability to test equipment without repeater disruption)
*Antenna locations (lots of options) Antenna safety (proper grounding of)
*Wide arrange of Antenna models with samples shown on zoom:
Yagi tape measure directive, 1/4 wave ground plane, Moxon, Globe, High Beam, Mag mount and Rubber Duck antennas
*Huge interest and discussed about Satellites: ISS-speeds of and different ways to follow them. Even a well adapted farmer can make due with his equipment for fun 😄. A Tumbling satellite can be better tracked with an upside down HT w/ rubber duck antenna:) beats hanging upside down yourself 😊

Next Tech Zoom

MAY 3, 2025 @ 10:00am

Planned Topics for Discussion

PACKET RADIO

CROSSLINK w/presenter Larry W9WTZ

Continuation Topics

Mesh Net, Fido Net, Flex Radio

Helpful Ideas

Research on internet or books to get familiar with topics up for discussion. Who knows your input may add valuable importance to the subject:)

Participants

14 individuals with 2 countries being represented

This Zoom brought Forth

IMMEASURABLE KNOWLEDGE LEARNED 👍

Much Thanks for Spending the Time with Us! AI-N9EDV & Connie-KE9ALV
